TF LPMS

THOUGHTFOCUS

Loan Purchase Management System (LPMS)

For buyers of loans in the secondary market, TFLPMS is a Software as a Service platform that supports the entire loan purchase lifecycle with various modules and portals for sellers, operations, TPRs (Third Party Reviewers), affiliates (loan productions arms), and offshore teams. TFLPMS automates critical workflows and allows the various participants to collaborate on a single medium - effectively increasing the speed and accuracy entire process. The TFLPMS platform uses NLP-based document extraction technology to automate the identification of loan documents. With LPMS, manual processes are reduced while speed, turnaround time, and accuracy are increased.

Accepts bid tapes from different sellers in the secondary market

**Automates due diligence, reduces errors and accelerates approval times**

Improves collaboration with all affiliates to the transaction

FEATURES

- Improves audit trail compared to manual processes

- Streamlines TPR workflow and keeps all documentation on a single platform

- Cures loan deficiencies faster with consolidated routing and approvals

- Secure views for all actors including sellers, operations, TPRs, affiliates, and offshore teams

- Reduces cost with content extraction (TFDocPro and other) engines
