THOUGHTFOCUS

6 Reasons
to Upgrade your Accreditation System

Most accreditation systems were originally built from documents and spreadsheets and lack the functionality required for today's accreditation professionals. We have identified six reasons to consider upgrading your accreditation system. ThoughtFocus can help with technology and services to modernize your system and deliver greater value.

1 Automate workflow
- Improve document management and auditability across accreditation process.
- Eliminate spreadsheets too

2 Eliminate multiple 3rd party systems
- Eliminate hand-offs between multiple systems
- Reduce software licensing costs

3 Reduce operating costs
Reduce operations staff or shift resources towards higher value activities

4 Improve the user experience
- Managed workflows for greater control and dashboards
- New, modern look and feel

5 Develop new insights
Tools that use data/outcomes with enhanced management reporting and analytics

6 Leverage prior investments
- Keep your current accreditation system and modernize with a modular approach
- Update at the rate, pace and budget that fits your organization
